Professional Summary

Senior Full-Stack, Frontend and DevOps Engineer with 4+ years of experience delivering production-ready web applications. Expert in React.js, Next.js, TypeScript, Node.js and NestJS, with the ability to independently design and implement modern, responsive interfaces from product requirements. Experienced in scalable APIs, real-time systems, Docker, CI/CD, Linux VPS administration, Nginx, DNS, SSL and end-to-end deployment.

Professional Experience

Full-Stack Developer, Joybox Company 10/2023 – 10/2024
Damascus, Syria

- Developed full-stack applications using React.js, TypeScript, Node.js and Express.js.
- Independently transformed business requirements into clean, modern and responsive interfaces and dashboards.
- Built and integrated backend APIs, authentication, authorization and core business workflows.
- Used Docker and supported deployment, debugging, maintenance and production issue resolution.

Freelance Full-Stack & DevOps Engineer, AB Group 07/2022 – 2023
Remote

- Designed and delivered a modern company website and secure administration dashboard using React.js and Node.js.
- Owned requirements, interface design, backend development, deployment and go-live.
- Provisioned a Linux VPS and configured Docker, Nginx, DNS, custom domains and Let's Encrypt SSL.

Backend Developer, Rachis Company 01/2025 – 07/2026
Damascus, Syria

- Design and maintain scalable backend services using Node.js, TypeScript and NestJS.
- Build secure REST APIs, authentication and authorization flows, integrations and structured business logic.
- Manage data models across SQL and NoSQL systems and containerize services with Docker.
- Contribute to CI/CD workflows and collaborate with frontend, QA and stakeholders on production delivery.

FullStack Developer, Right Code 01/2026 – Present

EDUCATION & PROFESSIONAL TRAINING

B.Sc. in Electronic and Communication Engineering, University of Damascus 2016 – 2023
Damascus, Syria

Microsoft Server Administration Training, Hadara Institute 2021
100-hour program covering Windows Server administration, Active Directory and core network services.

100-hour program covering networking, IP connectivity, security, automation and troubleshooting.

Frontend Engineering

React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, responsive UI and reusable components

DevOps & Infrastructure

Docker, Docker Compose, CI/CD, Linux VPS, Nginx, DNS, reverse proxies, SSL/TLS and Let's Encrypt

Data & Real-Time

SQL and NoSQL databases, WebRTC, Socket.IO, real-time systems, AI integration and computer vision

Backend Engineering

Node.js, NestJS, Express.js, REST APIs, authentication, authorization and integrations

UI Delivery

Modern interface design, dashboards and implementation directly from business and product requirements

Production Ownership

Architecture, development, deployment, security configuration, troubleshooting and maintenance

SELECTED PROJECTS

Athar - Social Donation Platform,

2025

NestJS, React.js, REST APIs, scalable full-stack architecture

Built a platform connecting users and organizations supporting disaster-affected communities, with money, item and time donations, analytics, verified profiles, posts and engagement features.

Gheras - Donation Management System,

2025

NestJS, backend architecture, REST APIs, workflow design

Developed a donation system with initiatives, waqfs, analytics and administrative approvals, including structured modules, business rules and secure API workflows.

Care Connect - Parent Community Platform,

2025

NestJS, Socket.IO, real-time communication, secure APIs

Developed backend services for profiles, groups, chats, events, requests and offers, focusing on scalable APIs, real-time communication and secure data management.

SCS Meet Conference, WebRTC, Socket.IO, full-stack development and deployment

2024

Built and deployed a video-conferencing platform with Google Meet-style capabilities and custom real-time features.

AB Group Website & CRM, React.js, Node.js, Docker, Linux VPS, Nginx, SSL

2023

Designed, developed and deployed a landing page integrated with a custom CRM, including the complete production infrastructure setup.
